

Shape of Earth

Procedure

1. Construct your sailing ship using a straw and masking tape.

2. Draw your sailing ship in Picture 2 and Picture 3 as it moves directly away from you, across the flat Earth. Begin with your ship positioned as in Picture 1, and move it away from you.

Picture 1

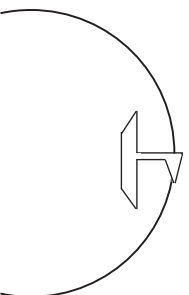

Picture 2

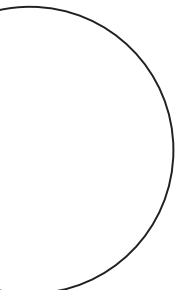

Picture 3

(Start with your ship positioned as in Picture 1.)

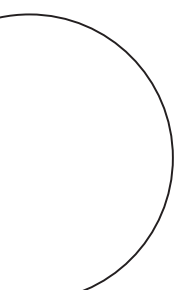

3. Draw your sailing ship in Picture 2 and Picture 3 as it moves directly away from you, across the round Earth. Begin with your ship positioned as in Picture 1, and move it away from you.
